DETAILED ACTION

1. This office action is in reply to the amendments and arguments filed on 8/27/03.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bross et al (U.S. Patent 5,517,751) in view of Kawakita et al (U.S. Patent 5,817,404) and Pommer (U.S. Patent 6,560,844).

The body of the rejection can be found in Paragraph 4 of the office action mailed on 6/4/03 (Paper #3).

Response to Arguments

4. Applicant's arguments filed 8/27/03 have been fully considered but they are not persuasive.

Applicant argues that while Kawakita et al teaches filling vias with conductive paste, it does not suggest filling the vias of Bross et al with conductive paste. However, this argument is not found persuasive.

Bross et al teaches filling via openings in subcomposite structures with metal so that it extends beyond the subcomposite structures surfaces (See Figure 3). Similarly Kawakita et al teaches filling via openings in subcomposite structures with conductive paste so that it extends beyond the subcomposite structures surfaces (See Figure 3b). One skilled in the art would have readily appreciated that the vias must be filled with conductive material and that metal and curable conductive paste are alternate

expedients that are obvious over one another. One skilled in the art would have readily appreciated using an obvious alternate material for the via filling such as curable conductive paste in the method of Bross et al.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
